

Dental Network Card Program

Good oral health is very important to your overall health. Problems in your mouth can affect your entire body! It is important to brush and floss your teeth regularly to prevent infection and visit a dentist for a check-up every year.

If you do not have dental insurance, there is a new program in the County that can help make visiting the dentist much more affordable!

The Dental Network Card Program offers discounts of 35% and more for services provided by participating dentists. There is an annual cost of \$36.50 (a dime a day) for individuals or \$52 (a dollar a week) for families.

For more information and to enroll yourself or your family in the program, visit the Dental Network Card Program webpage (<http://www.heginc.com/dentemax-NYSAC.html>).
